| SECTION 4: First aid measures          |                                                                                                                                                                                                                                                                                                                                                                                |
|----------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4.1. Description of first aid measures |                                                                                                                                                                                                                                                                                                                                                                                |
| First-aid measures general             | : Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).                                                                                                                                                                                                                                              |
| First-aid measures after inhalation    | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor/physician.                                                                                                                                                                                                                                   |
| First-aid measures after skin contact  | : Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.<br>Immediately call a POISON CENTER or doctor/physician. Wash with plenty of soap and water.<br>If skin irritation or rash occurs: Get medical advice/attention. Specific treatment (see<br>supplemental first aid instruction on this label). Wash contaminated clothing before reuse. |
| First-aid measures after eye contact   | : Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.                                                                                                                                                                                                   |
| First-aid measures after ingestion     | : Rinse mouth. Do NOT induce vomiting. Immediately call a POISON CENTER or doctor/physician.                                                                                                                                                                                                                                                                                   |
| 4.2. Most important symptoms and effe  | cts, both acute and delayed                                                                                                                                                                                                                                                                                                                                                    |
| Symptoms/injuries                      | : Causes severe skin burns and eye damage.                                                                                                                                                                                                                                                                                                                                     |
| Symptoms/injuries after inhalation     | : May cause an allergic skin reaction.                                                                                                                                                                                                                                                                                                                                         |

4.3. Indication of any immediate medical attention and special treatment needed

## CQMIT 1.5

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

| Materials for protective clothing | : Body protection depending on activity and possible exposure, eg, suit resistant protection chemicals type 6 (according to EN 13688 EN 13034 + A1)                                                                                                                                                                                                                                            |
|-----------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Hand protection                   | : The selection of a specific glove for a particular application and duration of use in a workplace shoud also take into to acount all relevant workplace factors such as, but not limited to :Other chemical wich may be handled, physical requierements (cut/puncture protection,desterity, thermal protection), as well as the instructions/specifications provided by the gloves supplier. |
| Eye protection                    | : Protection glasses universal mount (EN 166)                                                                                                                                                                                                                                                                                                                                                  |
| Skin and body protection          | : Body protection depending on activity and possible exposure, eg, suit resistant protection chemicals type 4 (according to EN 14605)                                                                                                                                                                                                                                                          |
| Respiratory protection            | : No special respiratory protection equipment is recommended under normal conditions of use<br>with adequate ventilation. Where excessive vapour may result, wear approved mask                                                                                                                                                                                                                |
| Other information                 | : Do not eat, drink or smoke during use.                                                                                                                                                                                                                                                                                                                                                       |
| Other Information                 | : Do not eat, drink or smoke during use.                                                                                                                                                                                                                                                                                                                                                       |

#### SECTION 9: Physical and chemical properties

| 9.1. Information on basic physical and o   | chemical properties |
|--------------------------------------------|---------------------|
| Physical state                             | : Liquid            |
| Colour                                     | : Amber.            |
| Odour                                      | : characteristic.   |
| Odour threshold                            | : No data available |
| рН                                         | : 4-6               |
| Relative evaporation rate (butylacetate=1) | : No data available |
| Melting point                              | : <-20 °C           |
| Freezing point                             | : No data available |
| Boiling point                              | : >200 °C           |
| Flash point                                | : > 100 °C          |
| Auto-ignition temperature                  | : > 300 °C          |
| Decomposition temperature                  | : No data available |
| Flammability (solid, gas)                  | : Non flammable     |
| Vapour pressure                            | : No data available |
| Relative vapour density at 20 °C           | : No data available |
| Relative density                           | : No data available |
| Density                                    | : ≈ 1,045           |
| Solubility                                 | : No data available |
| Log Pow                                    | : No data available |
| Viscosity, kinematic                       | : No data available |
| Viscosity, dynamic                         | : No data available |
| Explosive properties                       | : No data available |
| Oxidising properties                       | : No data available |
| Explosive limits                           | : No data available |
| 9.2. Other information                     |                     |
| No additional information available        |                     |

#### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

#### Thermal decomposition generates : Corrosive vapours.

10.2. Chemical stability

#### Not established.

10.3. Possibility of hazardous reactions

#### Not established.

10.4. Conditions to avoid

Direct sunlight. Extremely high or low temperatures.

COMERCIAL QUÍMICA MASSÓ, S.A. Viladomat, 321, 5º - 08029 Barcelona Tel.: 93 495 25 00 - Fax: 93 495 25 02 info@damles.com - www.damles.com

### CQMIT 1.5 Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

#### 10.5. Incompatible materials

#### Strong acids. Strong bases.

10.6. Hazardous decomposition products

fume. Carbon monoxide. Carbon dioxide. Thermal decomposition generates : Corrosive vapours.

| SECTION 11: Toxicological information               |                                                                      |  |
